*Commencing 2012 GIA will be implementing a survey to collect this additional information.

1. "Number of Students Who Began Program" is the number of students who began the program who are scheduled to complete the program within the reporting calendar year.
2. "Number of Graduates" is the number of students who have completed the program within 100% of the published program length.
3. "Graduates available for employment" means the number of graduates minus the number of graduates unavailable for employment. "Graduates unavailable for employment" means graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education in an accredited or bureau-approved postsecondary institution.

4. "Graduates employed in the field" means graduates who report that they are gainfully employed within six months of graduation in a position for which the skills obtained through the education and training provided by the institution are required or provided a significant advantage to the graduate in obtaining the position.
5. "Placement Rate" is calculated by dividing the number of graduates gainfully employed in the field by the number of graduates available for employment.

The graduate placement rates may include entry level jobs that pay entry level wages. After graduating from GIA, you may obtain an entry level job that pays entry level wages. GIA CANNOT predict the position a graduate might eventually attain or the income a graduate might eventually earn.

GIA programs of study do NOT prepare a graduate for, or lead to, employment for which passage of a state licensing examination is required.

GIA provides career services including job referrals, but GIA does NOT promise or guarantee employment to any student or graduate.

"Graduates employed in the field" means graduates who report that they are gainfully employed within six months of graduation in a position for which the skills obtained through the education and training provided by the institution are required or provided a significant advantage to the graduate in obtaining the position.
3. Salary is reported by the student. Not all graduates reported salary.

GIA graduates who obtain employment after graduation may start in entry level positions and should expect to earn salaries at the lower end of the hourly and/or salary range. Employment, career advancement, income, and the success or satisfaction of an individual student are not guaranteed and depend upon the local and national economy at the time, the graduate's abilities, efforts and prior experience, and a variety of other factors. ***We recommend that you conduct your own due diligence in the local job markets in which you anticipate applying to determine the salaries and opportunities available to graduates on entry into the field and as they advance in their careers.***

If you have any questions about how the data reflected on the above charts was gathered or if you want a list of employment positions determined to be within the field for any specific program for which statistics are reported above, please contact GIA's Career Services Department at careerservices@gia.edu.
